

## Environmental Policy

It is the policy of the group to give the utmost importance to protection of the environment. Our organisation is committed to endeavour that its manufacturing plants at:

- 1) Sudbury, Suffolk

Is operated to conform to prevailing legislation, and our environmental management systems continue to develop and reflect the best practice and standards, as well as continual improvements and prevention of pollution.

Where non-compliance is identified with environmental legislation and internal environmental standards, then these will be resolved with the utmost expediency in respect to our environmental obligations.

In the quest of all future product developments, primary importance will be given to environmental factors which could possibly influence the choice of materials, manufacturing processes, product specification, and marketing policy.

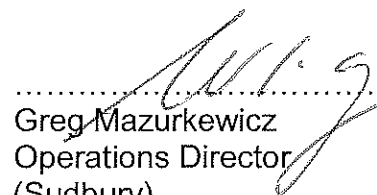

The Group's environmental policy will in general be vigorous in adapting to changes in legislation, organisation, and future technology.

The Group will encourage participation in its environmental policy at every level within the organisation, therefore promoting the best environmental practices through all of its employees.
